At Ravian, we deliver excellence in terms of dedicated and business-centric web applications. We are specialists in terms of customized web applications too. Our team of expert web designers, network engineers, software developers, graphic designers and Search Engine Optimizers make it possible to offer you wonderful web solutions that are both innovative and highly functional.

ARGON™ Live Broadcast

If you are looking for a solution to broadcast your seminars or events on the internet (webinar) or you need a meeting place for your visitors from distance. Ravian's Live Broadcast is for you. With a simple user friendly interface Ravian creates a low budget platform for you and your visitors to share your ideas with the world.

What is a Live Broadcast ?

Live Broadcasting is the ability to Web cast, live meetings, seminars, events, or show video with a DSL or Broadband Internet connection on the site. A video camera (with USB output) or a simple web cam, onsite Internet connection and a microphone is all you need to broadcast your video to the world!

Features :

- . 100% real time web based interactive Platform
- . Customizable graphical Design
- . Web based administration (System administration and as the director of the sessions)
- . Live video (via web cam or digital video camera)
- . VoIP (Real time audio communication through the computer via use of microphones and speakers)
- . Recording (for viewing at a later time by anyone using a unique web address)
- . Public Text chats , for live question and answer sessions, with the administrator
- . Automatic camera timeline generator

Options :

The following options can be optionally added to the OXYGEN™ web conference per request

- . Multiple camera inputs
- . Server side session recording
- . Extra videos for more users (limited to bandwidth)
- . Movie player for broadcasting preloaded movies

Technical specifications :

- . Structure: Client side Flash platform with professional action scripting (100% browser based) with a professional .NET Back office for system administration
- . Technology: Adobe Flash / ASP.NET2
- . Language: Flash Action Script 8/C#
- . Data Base: MS-SQL 2005
- . Data Mediator: XML or hierarchical file management
