At Ravian, we deliver excellence in terms of dedicated and business-centric web applications. We are specialists in terms of customized web applications too. Our team of expert web designers, network engineers, software developers, graphic designers and Search Engine Optimizers make it possible to offer you wonderful web solutions that are both innovative and highly functional.

Nickel™ Tenders Portal

Ravian Tenders Portal is a unique web application that automates and supports the tender process between the buyers and vendors internationally or nationwide. The primary purpose of Ravian Tenders Portal is to publish tenders and provide the means for bidders to access tender information and lodge electronic responses to tenders.

Ravian Tenders Portal is more than a website; it provides business process automation and workflow management that simplifies the tender process from end to end. Ravian Tenders Portal is the best solution for Private agencies to facilitate communication with suppliers and contractors in a prompt.

What is a Tenders Portal ?

Tender's Portal is a Web-based Tenders Management system. It stands for a professional processing of continuous online tenders. With a tender portal the complete tendering process— submitting of proposals, assessment, administration – will be done on the web.

Electronic or Online Tendering is just carrying out the same traditional tendering process in an electronic form, using the Internet.

Using Online Tendering, the Bidders can:

- Receive notification of the tenders.
- Receive tender documents online.
- Fill out the forms online.
- Submit proposals and documents.
- Submit Bids Online.

Features :

Below is an extensive list of the features NICKEL™ Tender's Portal has to offer.

General features:

- Easy to use interface with minimal training required
- 100% real time web based control panel
