OZONE™ Web Conference

If you are looking for a solution to create online virtual classrooms or you intend to broadcast your seminar on the internet (webinar) or you need a meeting place for your personnel to collaborate from distance Ravian's web conference is for you. With a simple user friendly interface Ravian creates a low budget platform for you to share your ideas with the world.

What is Web Conference ?

Web conferencing is used to conduct live meetings or presentations over the Internet. In a web conference, each participant sits at his or her own computer and is connected to other participants via the internet. This connection can be either through a downloaded application on each of the attendee's computers or a web-based application where the attendees will simply enter a URL (website address) to enter the conference.

Features :

- 100% real time web based interactive Platform
- Customizable Email Invitation generator
- Two levels of administration (System administrator and session administrator)
- Live video (via web cam or digital video camera)
- VoIP (Real time audio communication through the computer via use of headphones and speakers)
- Recording (for viewing at a later time by anyone using a unique web address)
- Whiteboard with annotation (allowing the presenter and/or attendees to highlight or mark items on the slide presentation. Or, simply make notes on a blank whiteboard.)
- Text chat - For live question and answer sessions, limited to the people connected to the meeting. Text chat may be public (Shared to all participants) or private (between 2 participants).

Options :

The following options can be optionally added to the OZONE™ web conference per request

- Multiple Whiteboards
- Server side session recording
- Extra videos for more users (limited to bandwidth)
- Movie player for broadcasting preloaded movies

Technical specifications :

- Structure: Client side Flash platform with professional action scripting (100% browser based) with a professional .NET Back office for system administration
- Technology: Adobe Flash / ASP.NET2
- Language: Flash Action Script 8/C#
- Data Base: MS-SQL 2005
- Data Mediator: XML or hierarchical file management
