## Ravian Products:

Ravian welcomes you with a bouquet of professional Web Applications, and promises to partner you through to a new level of functional excellence. At Ravian, we deliver excellence in terms of dedicated and business-centric web applications. We are specialists in terms of customized web applications too. Our team of expert web designers, network engineers, software developers, graphic designers and Search Engine Optimizers make it possible to offer you wonderful web solutions that are both innovative and highly functional.

## SILICON™ Decorator

Whether you're a producer or distributor of wall coverings and wall papers, floor coverings, tiles and vinyl and wood substitutes or you are the marketing manager of a serious building project or simply experimenting with home design ideas, Ravian's online decorator is for you. With a Click-and-pick Material Selector for walls and floors, and even Furniture or Cabinets and more, this software helps you visualize the results of your product in the cyber world and share it with your customers.

### What is online decorator?

Online decorator is an online Flash platform with custom 3D templates from different locations of your choice (living room, Dining Room, Bedroom, Kitchen, Home Office, Kids' Bedrooms, Bathroom and etc.) which could be rendered with your Products. Your customers can Simply Select, Mix, match, and play with colors, patterns, and textures, Indulge their desire to experiment with fabrics, wallpapers or window treatments and .... It takes only seconds for them to see your material in place instead of using their imagination.

### Features :

Below is an extensive list of the features SILICON™ Decorator has to offer.

- 100% real time web based interactive Platform
- User friendly navigation for locations and materials (click-and-pick)
- Custom locations of your choice
- Unlimited number of materials (wall papers, tiles and etc.)
- High quality rendering in 3D
- Compatible with all web design and development technologies
- Multiple (hierarchical) Dynamic Menus

### Options :

The following can be optionally added to the SILICON™ Decorator System per request

- Multiple Template designs
- Mixed mode rendering for multiple materials in one location (wall Covering Vs. Floor covering)
- Background music player
- Print Version of Decorated locations

### Technical specifications :

- Structure: Full Flash platform with professional action scripting
- Technology: Adobe Flash
- Language: Flash Action Script 8
- Data Mediator: XML or hierarchical file management
