TITAN™ Stock-Share Portal

Ravian stock-share portal is the one and only specialized web application available in Iran's software market. This application is designed for Companies (more than 500) registered with the Tehran Stock exchange (TSE). The application automates and supports the process of informing the share holders about their company share values and the latest News, reports and announcements.

The portal is so designed that the share-holders can access not only the filtered data of their company (amongst the others) but also get a comparison of it with all the other companies in the same industry. Dynamic charts help the Share holders to track the ups and downs of the price annually, semiannually, quarterly, weekly or even daily to evaluate their potential risks and rewards.

The portal is also a gateway for gathering the necessary information from share holders through standard forms and automating the process of profile creation and portfolio management.

Ravian Tenders Portal is the best solution for registered companies of Tehran stock exchange who want to inform their share holders and facilitate communication with them.

What is a Stock-share portal?

Stock-share Portal is a Web-based application that facilitates the process of informing the share-holders with substantial online data such as the latest price, ask/bids, the latest News, reports and announcements. Some stock portals use online gateways through a central depository system for the visitors to buy or sell their shares or manage their portfolios.
