Ravian welcomes you with a bouquet of professional Web Applications, and promises to partner you through to a new level of functional excellence.

At Ravian, we deliver excellence in terms of dedicated and business-centric web applications. We are specialists in terms of customized web applications too. Our team of expert web designers, network engineers, software developers, graphic designers and Search Engine Optimizers make it possible to offer you wonderful web solutions that are both innovative and highly functional.

## XENON™ Personnel Evaluation

Ravian personnel evaluation is a unique web application consisting of 6 modules for automation of the work flow in companies with more than one location. The primary purpose of Ravian personnel evaluation is to create a single gateway between different locations for collaboration of the personnel. In this way all the tasks in the 6 modules could be analyzed by mid level administrators and a total evaluation being performed for each of the personnel. The result is total report for the Top level admin or the Person in charge. Ravian personnel evaluation is more than a website; it provides business process automation and workflow management.

### What is a Personal Evaluation ?

Personnel Evaluation is a Web-based office automation system for managing the work flow in multi locations and, analyzing the output of the personnel through an integrated database. The reporting of the system not only creates a better view of the personnel output, but also creates a better understanding of it for the management through categorized reports.

### Features :

Below is an extensive list of the features Xenon™ PERSONEL EVALUATION SYSTEM has to offer. Some features are built into the system core; while others are integrated modules that synchronize their main properties automatically with the Core.

#### General features:

- Easy to use interface with minimal training required
- 100% real time web based control panel
- Dynamic WYSIWYG editor for creating rich eye catching content in your modules
- Three level hierarchal administration

#### Core Features:

- CEO panel for creating authorization levels for the total system and getting categorized reports of the system
- Top-level admin panel for registering authorized mid-level admin for each module
- Mid-level admin panels for management of personnel registered in each module
- Categorized registration for personnel and necessary reports in each level
